

## **Greenteam Courier Takes Another "LEAP" Forward.**

November 12, 2007

Part of the Greenteam Courier business philosophy is to "complete the circle" - to Give and Receive in the process of growing our business.

This was illustrated recently when we held our first Trees Across Toronto tree planting BBQ for our staff and friends and for clients, their staff and family in Toronto's Scarlett Mills Park. On that sunny fall day over 50 people gathered together to plant over 200 trees in an area that has been designated for reforestation in the coming years. We committed 5% of profits to this project and this was the first time we "completed the circle".

Now Greenteam Courier is expanding our commitment to the Greening of Toronto by switching to BULLFROGPOWER. While our corporate offices and courier facilities might appear to have a small footprint when assessing the total need to reduce CO2 emissions, caused by hydro generation, we believe that this small contribution when combined with the impact we can have by increasing awareness of Bullfrog Power within all the businesses, large and small, that use the Greenteam Courier services in Toronto, we can be a valuable resource to "Spread the Word".

Greenteam will proudly advise all of our hundreds of clients of the benefits of taking the "leap" to BullfrogPower. Soon all of our clients will know that we have chosen BullfrogPower and they will be aware of the environmental, social, economic and commercial benefits of leaping on board.

One small step, perhaps, but we believe the potential impact can and will produce significant results and that our efforts will be rewarded by an accelerated growth of our business.
